Section J: Fees for Preparation and Implementation of Advice This section is to be completed by your adviser following your initial meeting. Your Adviser will be paid the following amounts for providing financial advice: Fees Paid By You \$ _____ (plus GST). Fee for preparing Statement of Advice Please note that the fee for preparing the Statement of Advice is payable upon delivery of the advice. This fee will be payable regardless of whether the advice is implemented. Fees for subsequently implementing the advice will be disclosed in the Statement of Advice. Fees Paid by a Third Party (Commissions) These fees will be communicated to you in your Statement of Advice. These fees will not be payable if you do not accept the advice. **Section K: Client Confirmation and Acceptance** Please email the completed fact finder to guy@wholewealth.com.au with the following acknowledgement and declaration: I/We confirm the contents of the fact finder represent a true and accurate reflection of my financial circumstances and I/We understand the information provided in this fact finder will be used for the purposes of providing financial and investment advice to me. My/Our information will not be used for any other purpose unless directed by me. I/WE also accept the fees outlined in section J and authorise you, as my adviser, to proceed with preparing a written statement of advice. I/We undertake to pay the fee for the preparation of advice and I/We understand that fees for implementing the advice will not be charged until I/We accept the written statement of advice and agree to its implementation. OR If you are returning a hard copy of the fact finder, please sign below to confirm the declaration above.

Common Risk Profiles

The following is a list and description of the main risk profiles for investors. You can use these descriptions to answer question H4.

These descriptions are general in nature. Your Adviser will take into consideration your personal circumstances when providing advice and may advise on a different asset mix as they see fit.

Whilst property does not form part of the asset mix, property is inherently conservative with the appropriate strategy considered.

A. Ultra Conservative - Cash Management

As an Ultra Conservative investor, your risk tolerance is extremely low and you have a short time-frame for investment. You are not comfortable with growth assets and the only appropriate investment for you is cash-based investment such as bank accounts, cash management trusts and term deposits.

B. Conservative

As a Conservative investor, you are not in favour of risk and find it difficult to cope with losses. You feel more comfortable maintaining what you already have. You are more contented to accept lower returns rather than taking up too much risk for higher returns. Based on your risk profile, your preferred investment mix would generally be in defensive assets, such as bonds, cash, term deposits and fixed interests funds, and a small portion in growth assets, such as shares and property investments.

Below is a general example of an asset mix for a Conservative investor:

Defensive	Cash	25%	
	Fixed Interest	40%	65%
Growth	Australian Equities	15%	
	International Equities	10%	
	REITs and Infrastructure	5%	
	Alternatives	5%	35%

C. Moderately Conservative

As a Moderately Conservative investor, you tolerate low levels of variability in returns and prefer not to have large fluctuations in short term performance. Although increasing your wealth is not paramount and that you may have some nervousness about investing, you are prepared to accept some risks to your capital for the chance of moderate growth. Based on your risk profile, you generally prefer a balance mix of defensive assets, such as bonds, cash, term deposits and fixed interests funds, and growth assets, such as shares and property investments.

Below is a general example of an asset mix for a Moderately Conservative investor:

Defensive	Cash	15%	
	Fixed Interest	29%	44%
Growth	Australian Equities	21.5%	
	International Equities	13.5%	
	REITs and Infrastructure	8.5%	
	Alternatives	12.5%	56%

D. Balanced

As a Balanced investor, you look to achieve modest growth in your capital and at the same time aim to protect the wealth you already have. You understand that you will experience short term fluctuations in performance in order to potentially gain higher returns over the long term. Based on your risk profile, you are comfortable to invest more towards growth assets such as shares and property.

Below is a general example of an asset mix for a Balanced investor:

Defensive	Cash	5%	
	Fixed Interest	18%	23%
Growth	Australian Equities	28%	
	International Equities	17%	
	REITs and Infrastructure	12%	
	Alternatives	20%	77%

E. Growth

As a Growth investor, you seek for a high return for a greater growth potential. You are prepared to accept high levels of volatility in your portfolio to create substantial returns for extra wealth over the longer term. Based on your risk profile, you are comfortable to invest most of your assets into growth investments, such as shares and property, and a small percentage towards defensive assets, such as bonds, cash, term deposits and fixed interests funds.

Below is a general example of an asset mix for a Growth investor:

Defensive	Cash	2.5%	
	Fixed Interest	9%	11.5%
Growth	Australian Equities	34%	
	International Equities	23.5%	
	REITs and Infrastructure	13.5%	
	Alternatives	17.5%	88.5%

F. High Growth

As a High Growth investor, you are looking for wealth creation and are prepared to trade-off portfolio balance in pursuit of potential long term gains. You are comfortable with a portfolio that includes a substantial proportion of high risk investments and are prepared to accept short term fluctuations in performance. Based on your risk profile, you generally prefer a portfolio that only focuses on growth assets such as shares and property.

Below is a general example of an asset mix for a High Growth investor:

Defensive	Cash	0%	
	Fixed Interest	0%	0%
Growth	Australian Equities	40%	
	International Equities	30%	
	REITs and Infrastructure	15%	
	Alternatives	15%	100%
